

Climate Alliance

EU City Facility - Aims & Objectives

- Provide technical, legal and financial expertise inspired by best in class European practice to deliver at least **225 investment concepts**, which should **trigger more than EUR 320 M of public and private investment**
- Build capacity of at least **450 public authority staff** to develop substantial project pipelines. Provide them with tools, networking and knowledge transfer opportunities to accelerate Investment Concept implementation,
- Facilitate access, especially for small and medium-sized municipalities to private finance, EU funding streams and similar facilities and advisory services to realise and amplify the expected investments
- Use successful investment concepts and knowledge generated to **reach out to more than 8,000 cities and communities**, encouraging replication and catalysing further action across Europe

FEDARENE

How?

Climate Alliance

- Multiple application windows (“calls”) for support funding of up to €60k to develop an investment concept
- In-depth support from a country expert in each EU Member State
- Opportunities for peer networking and access to potential project investors
- Additional EU level and national activity together with city and energy agency networks
- Linking to other EU funded activity – e.g. Covenant of Mayors, Managenergy, Sustainable Energy Investment Forums, EIB, EBRD

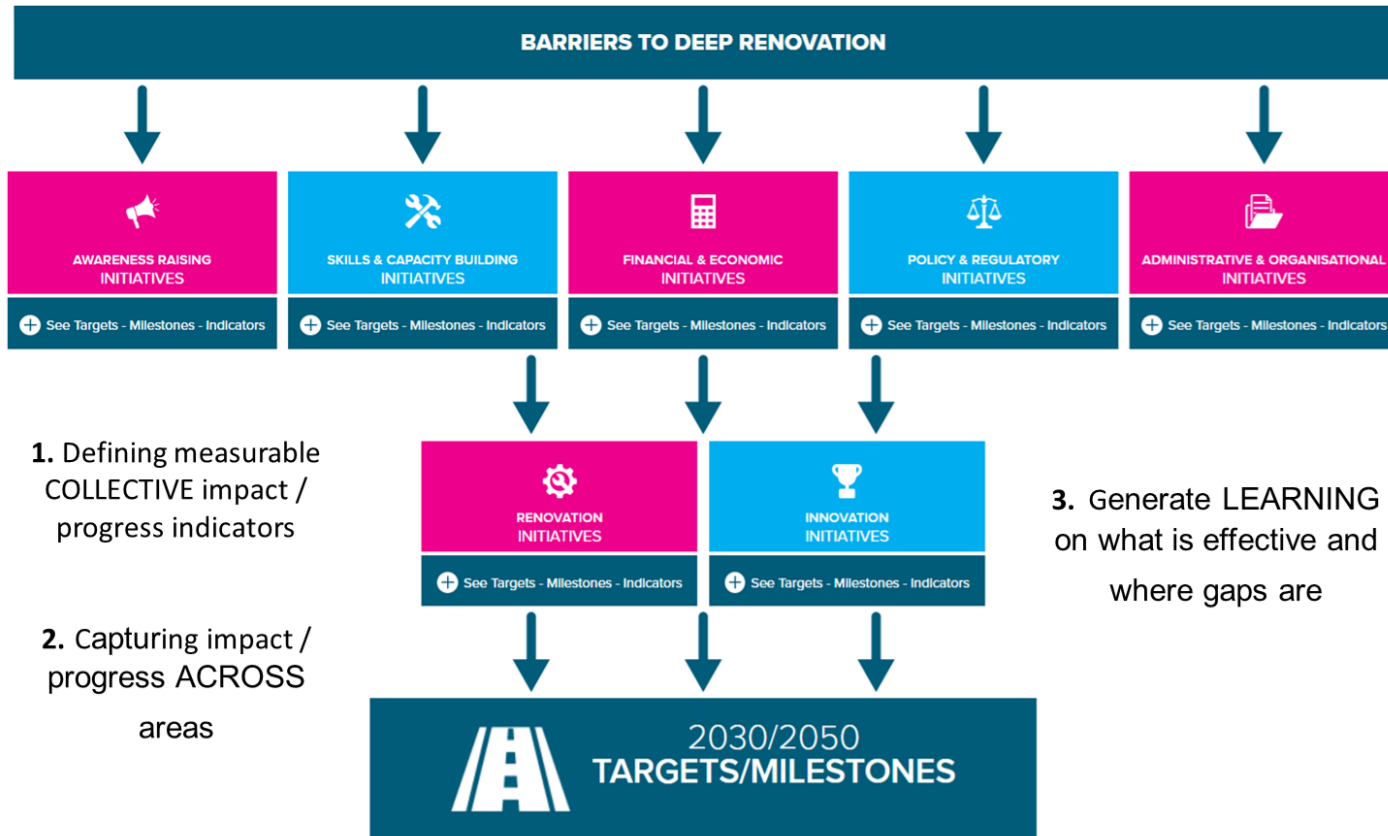

Climate Alliance

Next Steps

- Autumn 2019 – project website established
 - Early 2020 – launch event
 - Spring 2020 – first call for proposals

Develop new models
for bottom up action
on GHG reduction

Create financing
schemes and activation
tools to empower
bottom-up initiatives

Reduce GHG emission as
shared tasks between
neighbourhoods and local
authorities

3 pilot investments

Transnational coaching for all
activities according to support plan

Long-term effects

- Develop transfer and coaching framework for NWE and European municipalities and cities
- Develop transnational strategy for pro-active roll-out of outputs beyond partnership
- Prepare post-project implementation of coaching framework on EU, nation and regional level
- Develop long-term platform/working structure for post-project improvement of outputs – set up transnational communities of practice
