

## Guidebook for Strong Implementation

# WEBINAR TRAINING

14th, 21st and 28th October (three-part series)  
from 15.00-16.00

RSVP to Fran at [press@energycoalition.eu](mailto:press@energycoalition.eu) by  
7th October.

The EU Energy Efficiency Directive is an opportunity for Member States to reap the full economic and environmental benefits of energy savings and to pave the way for a more competitive and sustainable Europe.

To urge Member States to aim high, the Coalition for Energy Savings has developed a **Guidebook for Strong Implementation** that breaks down the EU Energy Efficiency Directive into main themes, deadlines, legal checks and good practices, and outlines the top recommendations for complete and ambitious implementation.

*Want to learn more about the Guidebook and how to make the Directive a success?*

Join the Coalition for a three-part webinar series that will teach participants how to navigate the Directive, what ambitious implementation has to offer and how to get Member States on board.

- 14<sup>th</sup> October 2013: “Setting the targets and exploring Energy Efficiency Obligations”
- 21<sup>st</sup> October 2013: “Key measures for reaching the targets”
- 28<sup>th</sup> October 2013: “Getting on track and using the Guidebook to encourage strong national implementation”

To register, send an email to [press@energycoalition.eu](mailto:press@energycoalition.eu) by 7<sup>th</sup> October.
